How to use the SilverStar GPS Child Tracker

Step 1

Place SStracking Personal Tracking Device in your child's backpack.

Step 2

Subscribe to receive an SMS text message of your child's location.

Step 3

View the location from your Mobile Phone or Computer

System Features

Unlimited On-Demand Location Records

An on-demand locate helps you to find the current location of the person carrying the SStrackingPersonal Tracker.

Personalized Safety Zones

A safety zone is a personalized virtual boundary around a location that you've chosen. When the person enters or leaves an active safety zone, you can be alerted via email and/or SMS text message.

Continuous Tracking

SStracking's continuous tracking feature provides you with an automatic update of the person's location at a time interval set by you. The location, with time and date, will be shown on a map on SStracking.com.

Location History

SStracking's location history allows you to see where the person has traveled for the past hour, day or week. Your location history will be available for your review on SStracking.com for up to 3 months.

Device Alerts

As part of our service, you can opt to have SStracking notify you via email and/or text message whenever your Personal Locator has been powered off or has a low battery.

GPS Technology

SStracking uses GPS technology and uses both satellite and cellular technologies to help more precisely and reliably determine the location of your Personal Locator.
