

## SSAUTOPRO

THE COMPLETE SOFTWARE SYSTEM  
FOR AUTO-RICKSHAW(TUK-TUK) MANAGEMENT

**Over the next few years, the SSAutoPro concept will make auto/tuk-tuk travel simple, secure and reliable.**

Plexitech Technologies and SilverStar Tracking Solutions have integrated IT and business to deliver a seamless customer experience for auto owners, drivers and passengers.

### We have a complete hardware and software solution

- Digital Auto-Rickshaw/Tuk-TukMeters
- Thermal Hand-held Bill Printer
- Tracking Device and Software
- Reservation System – Web and Application
- Billing and Cashiering
- Dispatch System
- Accounting Integration
- Front-end Web Site with Online Reservations
- Call Center Software

### How will the SSAutoPro System help earn more from each auto-rickshaw/tuk-tuk?

- ✓ You will know exactly how much **money** is being collected by the driver in the rickshaw/tuk-tuk
- ✓ You will track and know the actual **current location** of your rickshaw...you can immobilize it in case of theft
- ✓ You passengers will trust your service more because they will get printed bills.
- ✓ You will increase the number of passengers as they can claim company refunds with their printed bills.
- ✓ You will know your **daily earnings** so that the driver cannot cheat you.
- ✓ It will reduce **administration time and expense** with optional fully integrated billing, driver cashiering, and vehicle maintenance modules.

- ✓ It will **increase customer base due** to more customers calling the call center for home/office pick-ups
- ✓ It will **improve business control** through assured productivity and financial reports, and can plan future growth.

## Features for Web based Application

## What do we integrate?

**1.Fare Updates:** Passes the fare of completed trips through to SSAutoPro, so that the exact amount of the trip fare is automatically inserted into the completed trip record.

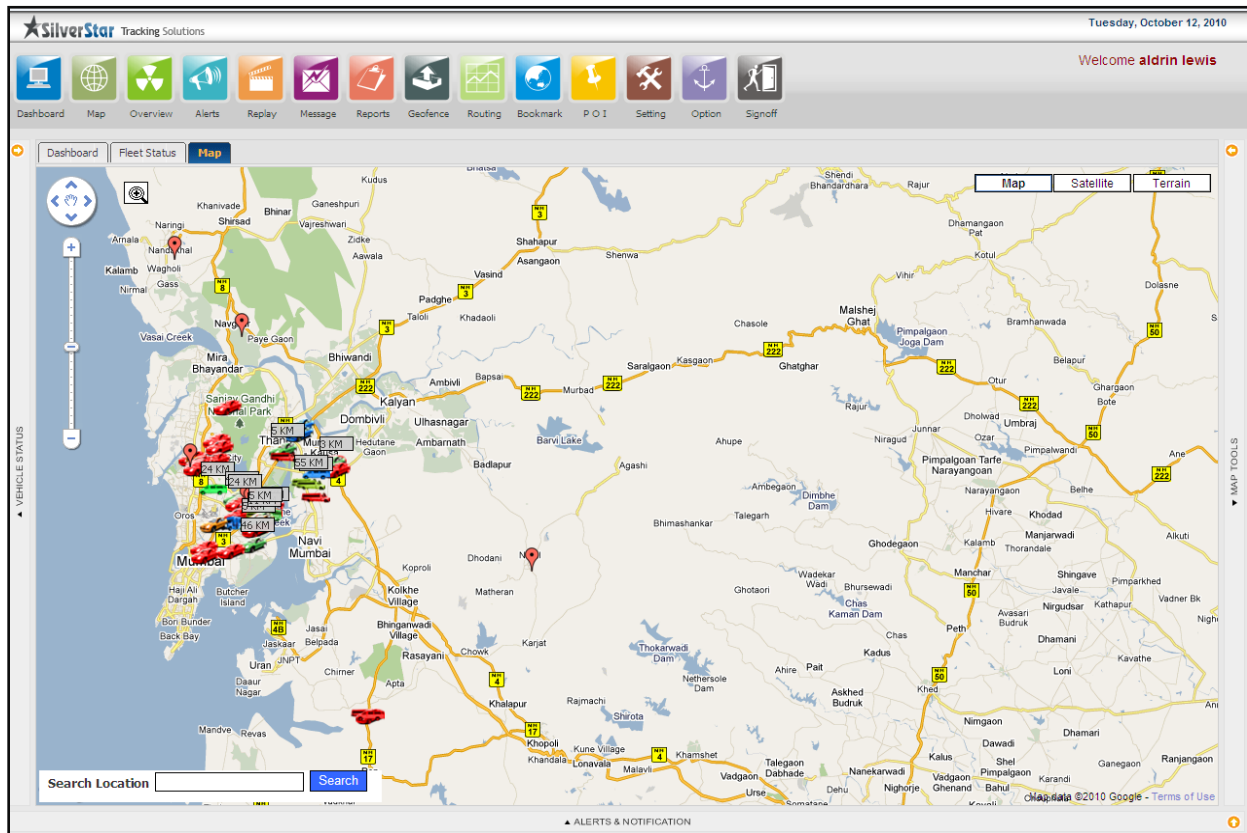

**2.Advertising Module:** New revenue stream – can tell advertisers exact number of passengers per day. Can give location based advertisement – good option for retail businesses.

**3.Receipt Printed:** A small Bluetooth printer is part of this inexpensive package. Passengers get a printout of their fares – they can get reimbursed by their companies easily.

## GPS for Auto-rickshaws

SSAutoPro works with SilverStar Tracking Solutions - that is specifically designed to complement the SSAutoPro system and it is built using the latest Microsoft SQL Server and .NET technology platform, for fast, reliable tracking performance.

**The return on investment provided by automating auto operations is easily proven. There is no question that if you make an investment, will there be an immediate and measurable return.**
